Horrible Experience

We had beef, vegetables, fish, meat balls, crabs, shrimps and noodles for hot pot. The food tasted great!

Problems in Sichuan

The last few years, Sichuan was suffered from earthquakes and floods. These natural disasters destroyed Sichuan very seriously. Many buildings and roads were damaged. It made many people homeless. There was not enough food and clean water. Some children lost their parents and became orphans. They even lost their schools and could not learn.

We can support Sichuan people by giving a donation. Our donation can help them to build more houses and schools. It can also help them to buy what they need. We can also give the orphans a monthly donation to maintain their lives.

Problems in Africa

There are many problems in Africa, especially disasters. The most destructive disaster in Africa is drought. The plants cannot grow during the drought so the people have not enough vegetables. They do not have enough water because there is no rain. Therefore, the price of food is too high. People cannot afford the food. The children do not have enough milk powder so they cannot grow healthily.

What can we do to solve the problems? We can donate some old clothes to them so that they can be comfortable. Besides, we can also ask our parents to sponsor children from Africa so that the children who do not have a mum and dad can live happily.

Problems in India

There are many problems in India. Diseases spread quickly because the aid camps are too crowded. There is not enough food and water. There are very few blankets. There is very little medicine. There are not enough doctors and nurses. People do not have enough beds. They are in need of our help.

What can we do? We can give a donation. We can either perform a magic show or a dance. We can either do a sponsored walk or a sponsored swim so that we can help the people in need.

Your donation can help people to build their houses. They can have better lives in India.
